

Kathirvel N

SOFTWARE DEVELOPER

Frontend Developer with 1.5+ years shipping production web apps using React.js, JavaScript, and Tailwind CSS. Built 15+ reusable UI components, integrated 5+ REST APIs with JWT auth, and optimized performance reducing load times by 25%. Strong in Agile, crossfunctional collaboration, and scalable UI delivery. Seeking Frontend roles in Bangalore or remote.

WORK EXPERIENCE

Software Developer

Pixalive Technology Services Pvt Ltd
12/2024 - Present Bengaluru, India

Currently working as a React Frontend Developer, building responsive web applications using React.js and Tailwind CSS. Developing reusable UI components, integrating REST APIs, and collaborating with backend teams to deliver smooth and scalable user experiences.

Intern

Uniq Technologies
01/2024 - 06/2024 Bengaluru, India

Completed a 6-month internship as a Python Full Stack Developer, where I built web applications using the Django framework and optimized database performance. Gained hands-on experience in the Software Development Life Cycle and Agile methodologies.

PROJECTS

HRM Portal

<https://first-project-seven-sepia.vercel.app/>

Developed a web-based HRM Portal to streamline employee onboarding, attendance tracking, leave management, and performance monitoring. Implemented an admin dashboard to manage employee records and automate HR processes, improving operational efficiency and reducing manual workload. Integrated secure authentication and RESTful APIs to ensure efficient data handling and system reliability.

Vendor app

<https://rewardify-taupe.vercel.app/>

Description:
Vendor App is a centralized platform designed to streamline vendor onboarding, order tracking, and communication. I developed a vendor management system for onboarding and profile handling, implemented order and transaction tracking features, and improved operational transparency by reducing manual coordination and enhancing delivery efficiency.
